

### Insurance Registration Information Study Abroad and Language Programs

The University of Haifa International School requires that all students be covered by an Israeli health insurance company for the duration of their studies. The International School works with the Harel-Yedidim Insurance Company, which provides medical services through Clalit Medical Services. Health insurance is included in the tuition fee for all full-time students studying in the International School.

The health insurance provided by Harel-Yedidim does not cover students above the age of 65 or any pre-existing conditions. Therefore, if you do not qualify for the Harel-Yedidim health insurance for either of these reasons, the University of Haifa requires that you be covered by insurance from your home country that will be valid for treatment in Israel.

The International School has arranged for the health insurance to cover you for three days before the date the program begins and to continue for four days after the program ends. If you will be arriving to Israel earlier or staying later and you would like to have health insurance for this additional period of time, you must make the arrangements directly with the health insurance company. They can be reached via e-mail at [y\\_health@yedidim.co.il](mailto:y_health@yedidim.co.il).

The health insurance covers all injuries or illnesses that occur while you are in Israel. The insurance provides coverage from the moment you leave your home country until the moment you return to your home country, assuming you are covered for your dates of travel.

Please see the following chart for the exact dates you will be covered by the health insurance:
